## REPORT OF THE REGENTS.

---

*To His Excellency D. C. Heyward, Governor of South Carolina :*

Sir: It was the intention of our Board to present as an appendix to this report an interesting study prepared by the Superintendent, of the early charities in South Carolina as well as of the development of this Hospital. At the last moment, much to our regret, we learn that we cannot use the sketch as intended, because of delay in publishing the special edition of the newspaper for which it was prepared.

It appears that public charity began in South Carolina as early as 1694, and has been in operation ever since. It is eighty-two years since this institution was founded. In that time it has given shelter to 11,058 patients. But it is only of recent years that the growth of the institution has been so great as to be almost phenomenal. We find that nearly one-half of the total number of patients received have been admitted since 1890. These figures are at first appalling. But careful inquiry shows that the present admission of nearly five hundred patients a year does not indicate so great an increase of insanity in our midst as appears at first sight. Only about one-half of these are first attacks. The balance, to a large extent, are chronic cases of mental disease, old age, paralysis, etc. But it does concern us that we admit now a thousand patients every two years, whereas it took nearly thirty years for the first thousand to be admitted.

After long study of the various problems of our Hospital we are satisfied that since the State assumed the entire burden of support, about 1870, there has been a growing tendency to place upon the State Treasury burdens which the several counties would not themselves assume, if the old method were still in operation. It thus is made clear to us that "State care" is not an unmixed blessing. If part of the cost per patient, say one-fourth, were required of the counties, we are inclined to think a certain check might be exercised upon the commitment of such cases as do not require the confinement of an asylum. We have given much thought to this problem, and

are inclined to regard the method above suggested as the one most likely to afford relief of what we must regard as an abuse of the purposes of the Hospital.

In event of the General Assembly taking up again the question of providing a home for Confederate veterans, the Regents wish to renew their offer of a portion of Bellevue Place upon the same terms as tendered in our report for 1901. This would allow the State to do full justice to the veterans, in that it would permit the erection of permanent brick cottages or wards for their present use, if, in the future, these structures are to revert to the uses of the patients of this Hospital.

We regret to call your attention to an unwillingness on the part of county officials to comply with the law requiring inebriates to be pay patients.

The chief need of the Hospital is a ward for excited white females. Such a building would give relief to the main wards and afford an opportunity long sought by our Board for the removal of two wards of white women from the old building, where they are in unpleasant juxtaposition with colored female patients.

The Board again finds itself able to report a balance after closing all outstanding obligations presented against us. This has been done only by the exercise of rigid economy by the Board and resident officers, and even such oversight would not have accomplished this result but for the use of the \$12,000 accruing from the insurance on the Taylor building.

The matter of support cost \$1,350.44 over and above the \$120,000 appropriated for that purpose last year. The per capita was \$105.06, against \$101.32 for the previous year. It is the opinion of the Superintendent and Treasurer that we shall not be able to get through the coming year on the same appropriation, but after careful consideration the Board have decided to run the risk of a small deficit rather than at this time ask for an increase in appropriation.

After considering, for several weeks, the whole question of maintaining the institution for 1904, we have concluded to ask through your Excellency for the following appropriations:

|                               |           |
|-------------------------------|-----------|
| Support .. . . .              | \$120,000 |
| Building and repairs .. . . . | 15,000    |
| Fire protection .. . . .      | 1,500     |
| Regents' expenses .. . . .    | 1,200     |

We beg to thank your excellency for the interest you have already manifested in the Hospital under our charge and to request your continued assistance in discharging the responsibilities which all must feel attach to the officers empowered to look after the present and future interests of the insane of our State.

B. W. TAYLOR, M. D.,  
President.

W. J. GOODING,  
Vice-President.

IREDELL JONES.

J. PERRY GLENN.

W. W. RAY, M. D.

## SUPERINTENDENT'S REPORT.

---

To the Board of Regents :

I have the honor of presenting to you the eighteenth annual report of the State Hospital, together with the financial statements and statistical tables.

The records show that during the past year 1,641 people were cared for. The total admissions were 495. The highest daily number was 1,191 and the lowest 1,117. The daily average was 1,155. Of the total number 949 were white and 692 were colored.

Provision for the large number of patients has been a matter of deep concern to us all. Last February, during the session of the General Assembly, the Legislative Committee, after consulting with your Board and the resident officers, determined that the normal capacity of the Hospital was at that time one thousand patients, and that when the census of our population reached 1,150 the resident officers, in order to carry on the purpose of the Hospital with as little detriment to the patients as possible, must send harmless patients home, to keep as nearly as possible the total population down to 1,150, and that 1,150 be considered the maximum.

These instructions have been followed and, while the average for the year has been 1,155, yet the growth of population continues in spite of all rules and plans we have yet been able to devise.

The total number of admissions since the opening of the Hospital has been 11,058, of whom 7,640 have been received since 1880 and 5,351 since 1890. The meaning of these figures may be better appreciated when it is stated that of the total number of patients received since 1828 nearly one-half—48 per cent.—have been admitted in the last fourteen years. In other words nearly as many patients have been received in the last fourteen years as had been admitted in the previous sixty-two years.

During the year we have been free from contagious diseases, except mumps and chickenpox. Tuberculosis continues to be the most prevalent disease and is especially fatal among the colored patients, proving each year one of the chief factors of our high mortality.

## ADMISSIONS.

Of the 495 patients received five were returned and 490 were new commitments. Practically all *bona fide* residents of South Carolina for whom application was made, were received. Of these admissions 281 were white and 214 colored. The number of first attacks—the real measure of occurring insanity—was 244, which is about the average for the last six years. The chief among the alleged causes of insanity were ill health, epilepsy, domestic troubles, religion, heredity, inebriety and paralysis, but 222, or 45 per cent., had no cause assigned for the mental breakdown.

As pointed out in former reports, the institution performs many functions in our body politic. Besides being an asylum for the insane, it also plays the part of a large State almshouse, as well as serving as a receptacle for undesirable members of many communities.

Of the classes of mental disease other than insanity, received annually since 1891, the following tables are interesting:

## IDIOCY AND IMBECILITY.

|                |    |
|----------------|----|
| 1891.. . . . . | 10 |
| 1892.. . . . . | 17 |
| 1893.. . . . . | 12 |
| 1894.. . . . . | 22 |
| 1895.. . . . . | 12 |
| 1896.. . . . . | 31 |
| 1897.. . . . . | 25 |
| 1898.. . . . . | 28 |
| 1899.. . . . . | 20 |
| 1900.. . . . . | 28 |
| 1901.. . . . . | 24 |
| 1902.. . . . . | 16 |
| 1903.. . . . . | 24 |

## EPILEPSY.

|                |    |
|----------------|----|
| 1891.. . . . . | 34 |
| 1892.. . . . . | 34 |
| 1893.. . . . . | 22 |
| 1894.. . . . . | 27 |
| 1895.. . . . . | 25 |
| 1896.. . . . . | 33 |

|                |    |
|----------------|----|
| 1897.. . . . . | 40 |
| 1898.. . . . . | 42 |
| 1899.. . . . . | 63 |
| 1900.. . . . . | 33 |
| 1901.. . . . . | 45 |
| 1902.. . . . . | 46 |
| 1903.. . . . . | 48 |

## INEBRIETY.

|                |    |
|----------------|----|
| 1891.. . . . . | 17 |
| 1892.. . . . . | 15 |
| 1893.. . . . . | 17 |
| 1894.. . . . . | 20 |
| 1895.. . . . . | 9  |
| 1896.. . . . . | 16 |
| 1897.. . . . . | 12 |
| 1898.. . . . . | 21 |
| 1899.. . . . . | 19 |
| 1900.. . . . . | 26 |
| 1901.. . . . . | 27 |
| 1902.. . . . . | 24 |
| 1903.. . . . . | 25 |

These figures are of special interest since they help answer the question of separating from the insane proper the other classes now associated with them in this Hospital. Your Board has on several occasions studied the problem of establishing elsewhere an institution for the colored insane, but you and the Committees of the General Assembly, who have considered the matter, have concluded that as yet one large central colony for both races and the several classes of mental disease, to be provided for by the State, presented the most economical solution of the question. But the time will come when the State must provide separate institutions for the classes just tabulated. These figures must serve as a basis for your board and the General Assembly to reach a conclusion on these important questions. My own opinion is that for some time to come the best policy for South Carolina will be to maintain these several classes here. But it is not fair to any of the unfortunates that they should be compelled to associate with the others. At this time this applies with special force to the inebriates. The table shows that it is found necessary each year to send about 25 drunkards to this Hospital.

With our present arrangements these patients are compelled to associate with sufferers from all degrees of mental disease. There is no question in my mind that the State should provide a receptacle for these cases, but they should not be confined with the insane. They are entitled to a separate cottage in which they can be made comfortable till their exhausted nerves and weakened wills have had time to regain their normal condition.

It is clearly the purpose of the General Assembly that this Hospital shall not be imposed upon in the matter of receiving inebriates. The law of 1884, with this intent, exempts inebriates from the beneficiary class and requires that they be pay-patients. Subsequent amendments have been enacted to enforce this purpose of the law by requiring two months' pay (\$41.70) as a prerequisite for admission. I regret now to state that this law is commonly ignored by county officers in the commitment of inebriates, even when their attention has been specifically called to the Statute.

#### IMPROVEMENTS. ✓

✓ Under sanction of an Act of the last General Assembly your Board purchased in March from Mr. John C. Seegers, at a cost of \$5,500.00, the tract of land lying between Gregg street and the Southern Railway. The agreement is to pay 6 per cent. on the principal and from the pay patients' fund \$1,000.00 annually till the whole indebtedness be cancelled. The Act giving power to purchase this land also gave your Board authority to close adjacent streets after extending Lumber Street to Hardin Street. The work of opening Lumber Street has been delayed on account of certain differences between the city of Columbia and the Southern Railway in relation to the opening of Richland Street, which was in litigation. But I am now informed that this has been adjusted and the railway will proceed to bridge Lumber Street at Laurens Street to the satisfaction of the Mayor and Council, as agreed on. As soon as this is done the Hospital will proceed to extend Lumber Street easterly to Hardin Street, as authorized by the General Assembly.

The completion of the two additional stories of the Annex last summer has afforded considerable relief to the crowded state of the department for white women. ✓

The burning of the Taylor Building last January proved a serious misfortune. The restoration of the building has proceeded slowly and its occupation finally has been delayed by the development of an infectious disease in the wards for white men.

For many years it has been claimed that the sewage of the institution upon entering Smith's Branch has been a menace to the health of the city. The completion of the new sewerage system of the city has given opportunity for removing this possible danger, and the work of connecting the several wards of the institution with the new system has proceeded as rapidly as possible. Since there was no special appropriation for this purpose we have had to apply to it the general fund for improvements and repairs.

The special fund of \$1,500.00 for improvement of fire protection has been spent in running a ten-inch pipe from the Richland Street main through Pickens Street and connecting with the mains on Lumber Street and Elmwood Avenue. It is hoped that this appropriation will be continued annually till the institution is surrounded by a ten-inch circuit.

The erection at the front gate of a switch house was found necessary for controlling the electric lighting of the institution.

The minor repairs, painting, etc., have been carried on as usual.

### FINANCIAL.

The carefully prepared tables of the Treasurer show that for one month only did our disbursements run under \$10,000.00, the average being \$12,769.82. The total income was \$157,219.62 and the total disbursements \$153,337.91, leaving a balance of \$3,981.71.

The amount expended for support proper was \$1,350.44 in excess of the \$120,000.00 appropriated for that specific purpose. This amount divided by 1,155—the daily average population—gives an annual per capita of \$105.06. While this amount is \$3.74 in excess of last year's per capita, it is a fair result considering the higher price of provisions and hospital supplies and will compare favorably with any other Southern Hospital for the Insane.

I fully appreciate the hesitation on the part of your Board to ask the General Assembly for an increase of appropriations, especially at a time when the finances of the State are said to be in unsatisfactory condition. But with the prospect of a further increase of population and no indication of a decrease in prices of food stuffs and supplies it is not likely that the institution can again be supported on an average of \$10,000.00 per month.

Judging from past experience we must continue to make preparations for the future by erecting such buildings as seem to your Board most needed and upon this policy, as you have done in the matter of buying land, etc., ask the General Assembly for a com-

paratively small annual appropriation for buildings and repairs instead of soliciting large single appropriations. This is one of the lessons a recent study of the development of the institution has taught us all. By this method some progress is made annually without placing an excessive burden on the taxpayers for a given year. While this policy may not always secure all that is needed for the institution, it establishes principles of rigid economy and prevents our remaining at a standstill, which would lead to retrogression.

The other appropriations needed will be that of \$1,200.00 for the expenses of your Board and \$1,500.00 to better our protection against fire.

Tabulation of statistical and financial tables for comparison were included in the report of last year, so that it is not deemed necessary to report them here.

#### NEEDS.

Among the more urgent needs, as already brought out, are new buildings for excited white women and for inebriates. A larger and better work shop for patients would be a decided advantage. Two new boilers for the engine room and a larger mangle are among the more important needs in the mechanical department.

In conclusion, it remains for me to make personal and official acknowledgement of the kindness and assistance I have received at your hands during the year.

J. W. BABCOCK,  
Physician and Superintendent.
